

## Digital Manometer

### DMAN1981

#### Application:

The digital Manometer is used for testing of any Gas Pressure systems, as well as Test Ventilation and Air Conditioning systems.

#### Specifications:

- 11 different units of measure
- Dual LCD display
- Record function with data hold
- Linearity/Hysteresis: +/- 0.89% FSO
- Max Pressure: 137 kPa
- Pressure range: 0 to +/- 34.47 kPa
- Auto power off
- 1x 9V battery, low battery indicator
- Convenient hard carry case

Where would we be without Gas?
