

## Stainless Steel Braided LPG Gas Pigtail Hose

### HO1654

#### Application:

The connection of 2 x POL LPG cylinders. The POL connection incorporates an excess flow valve (EFV), so in the event of a rupture or disconnection whilst attached the cylinder which is still turned on, the EFV immediately restricts gas flow to a non-hazardous level.

#### Specifications:

- Hose Diameter: 8mm
- Hose length: 900mm
- End fittings: POL with handwheel x POL without handwheel
- AGA Approved
- Designed and Manufactured in accordance with AS/NZS 1596 and AS/NZS 1869
- Gas Classification: Class F
- Maximum Pressure: 2600 kPa
- Temperature Range: -20°C to +100°C
- POL torque: 20Nm

#### Installation:

- Avoid localised bending/twisting
- Make the bend radius as large as possible where there is repeated movement
- Do not stretch or compress
- Not designed to be used underground or where inaccessible
- Do not over tighten
- Do not expose to corrosive agents
- Installation must comply with AS/NZS 5601

\* Sustained use at the maximum temperature may shorten the life of connector

**Where would we be without Gas?**
